It gives me great pleasure to present the inaugural issue of GLAMOROSA- India's premier designer jewellery magazine dedicated to the art of fashion and costume jewellery.

We intend to enchant people with means to satisfy their desires, specially those aesthetes for whom fine design is a creed.

For centuries women have adorned themselves with whatever material was around. Be it leaves, shell, flowers, coir, metals or beads. This practice wasn't just aesthetically appealing but also had a deep meaning – reflection of culture, beliefs and most importantly reflection of souls of people. The history of creation of pieces of adornment is one of the most ancient histories in this world.

Today's trend is more distinct and contemporary. Fusion and light wear jewellery are the buzzwords. Coloured gemstones, beads and carved gems, and enamels will make the jewels more trendy and captivating. We design collections that help us stay on top of the newest, coolest and most interesting trends. See it for yourself as you browse through this magazine.

We hope you enjoy reading GLAMOROSA as much and we enjoyed conceptualising and publishing it.

Increasing emphasis on & FASHION STYLE

Mix and match, contrast, be bold, and a go getter look with standout jewellery is definitely the in thing. Because we're always looking to stay on top of the newest, coolest, and most interesting trends, we've already designed our collection that reflects it. Latest emphasis is on turning to jewellery choices that define your signature style.

Costume jewellery which are statement pieces with bling is the most in thing.

Our jewellery ranges from multicolour necklaces, bold earrings, statement neckpieces, layer necklaces to delicate hoops. Invest in pieces that you can get a lot of mileage out of and wear more often. Our designs embrace clever use of materials, and savvy construction that allows the wearer to stand out from the crowd.
